## Proposals and References

### Proposal 1: Appropriation of Surplus

We believe that sustainable growth of business and strategic investment to achieve profitability, with our aim for enhancing corporate value contribute to the common interests of our shareholders. We have thus established a basic policy that we should first secure the funds for the strategic investments to enhance the corporate value and then pursue the stable and consistent distribution of profit.

Based on this policy, for the year-end dividend for the current fiscal year, it is proposed to pay 32.50 yen per share consisting of a common dividend of 27.50 yen per share and a commemorative dividend of 5 yen per share to mark the listing of the Company's shares on the First Section of the Tokyo Stock Exchange.

1. Type of dividend assets  
Cash
2. Allotment of dividend assets to shareholders and the total amount  
32.50 yen per share of common stock of the Company  
(Common dividend: 27.50 yen, Commemorative dividend: 5 yen)  
Total amount: 2,047,500,000 yen
3. Effective date of distribution of surplus  
June 24, 2016

**[Basic Policy and Procedures for Nomination of Candidates for Director]**

In nominating candidates for Director, the Company's criteria for selecting candidates for Director include that persons are capable of making decisions and executing in accordance with the Company's corporate philosophy, are of good character, have effective communication skills, and have leadership qualities. For Outside Directors, the Company seeks persons from outside the Company who have experience as corporate managers of global enterprises, knowledge of technological development, and specialized knowledge in the fields of legal affairs, finance and accounting, etc., and moreover, are highly independent.

In selecting Outside Directors, the Company determines candidates, taking into consideration the balance of knowledge, experience, specialized fields, etc. of the Board of Directors as a whole.

As independent Outside Directors are the majority of the Company's Board of Directors, candidates for Director are selected from a neutral perspective. Nomination of candidates for Director requires review in advance at a meeting of independent Outside Directors to reflect their opinions.

**Proposal 3:** Determination of the Calculation Method of the Amount and Details of Performance-based Stock Compensation for Directors

1. Reasons for the proposal and for its appropriateness

Compensation for the Company's Directors (excluding Outside Directors, hereinafter the same applies) consists of "basic remuneration," "bonuses," and "stock options." It is proposed to introduce a new performance-linked stock compensation plan for Directors (Board Benefit Trust, or BBT, hereinafter referred to as the "Plan"). Following the introduction of the Plan, no new stock options will be issued.

The purpose of the introduction of the Plan is to further clarify the linkage between remuneration of Directors, financial results of the Company and the value of the Company's shares to ensure that not only the benefit of the increase in the share price, but also the risk of the decrease in the share price is shared among the Directors and the shareholders, thereby strengthening the Directors' awareness of their contribution to the medium- to long-term improvement in financial results and corporate value. The Company believes that the introduction of the Plan is appropriate.

Regarding the amount of compensation for Directors under the Plan and its details, it is proposed to grant new stock compensation to the Company's Directors, separately from the compensation for Directors (within 300 million yen a year, excluding salaries as employees), which is based on the resolution by the General Meeting of Shareholders held on February 27, 2013. The Company proposes that the details of the Plan within the framework of 2. below be entrusted to its Board of Directors.

If the "Election of Seven (7) Directors" in Proposal 2 is approved as proposed, the number of the Company's Directors eligible for the Scheme will be three (3).

2. The calculation method for compensation etc. under the Plan and its details

(1) Overview of the Plan

The Plan is a stock-based compensation plan whereby the Company's shares are acquired through a trust using funds contributed by the Company (hereinafter, such trust established pursuant to the Plan is referred to as the "Trust"), and the Company's shares and cash equivalents of such shares at their market value (hereinafter collectively referred to as "Company's Shares etc.") are granted through the Trust to the Company's Directors pursuant to the Officer Stock Distribution Rules established by the Company's Board of Directors. The Company's Directors shall receive the Company's Shares etc. upon their retirement, in principle.

(2) Amount contributed by the Company to the Trust

Provided that this proposal is approved, the Company will establish the Trust by contributing the funds necessary for the Trust to preliminarily acquire the number of shares, which is reasonably estimated as required for granting of the Company's Shares etc., for a certain period pursuant to (4) and (5) below. The Trust, as mentioned in (3) below, shall acquire the Company's shares using funds contributed by the Company.

Specifically, if this proposal is approved, the Company will establish the Trust by contributing the amount of funds required for the three fiscal years from the fiscal year ending March 31, 2017 to the fiscal year ending March 31, 2019 (hereinafter referred to as the "Initial Applicable Period"). The maximum number of points to be awarded to Directors based on the Plan is a total of 45 thousand points per fiscal year as mentioned in (4) below. Thus, upon establishment of the Trust, the Company will contribute the funds reasonably estimated necessary for acquiring 134 thousand shares of the Company, taking into account the most recent closing price of shares of the Company's common stock for ordinary transactions at the Tokyo Stock Exchange. For reference, if the closing price of 1,058 yen on April 26, 2016 were applied, the amount of necessary funds would be approximately 143 million yen. Once the Trust is established, the Company shall not make any additional contribution during the Initial Applicable Period.

Moreover, after the Initial Applicable Period has passed and until the Plan comes to an end, the Company shall, in principle every three fiscal years, make an additional contribution to the Trust in respect of the following three fiscal years (hereinafter referred to as the "Next Applicable Period") of the funds reasonably estimated necessary for acquiring the number of shares, which will be required for granting to Directors under the Plan, in the same manner as at the time of establishment of the Trust. However, if, at the time of such additional contribution, the Company's shares (excluding the Company's shares corresponding to the points awarded to the Directors but granting of the Company's Shares etc. to Directors has not been completed) or cash (hereinafter collectively referred to as the "Remaining Shares etc.") remain in the Trust assets on the date immediately before the start of the Next Applicable Period, the Remaining Shares etc. shall be allocated to the funds for the granting or for the acquiring of shares in accordance with the Plan during the

Next Applicable Period. Therefore, the amount of the additional contribution that the Company may make in the Next Applicable Period shall be calculated, taking into account the Remaining Shares etc.

When the Company decides to make any additional contribution, it shall disclose the fact appropriately in a timely manner.

(3) The method of acquiring the Company's shares

The Trust shall acquire the Company's shares on the stock market or by underwriting the disposition of the Company's treasury shares, using the funds contributed by (2) above.

During the Initial Applicable Period, the Trust shall acquire shares within the upper limit of 134 thousand shares without delay following the establishment of the Trust (August 2016 (scheduled)).

(4) The calculation method and the upper limit for the number of the Company's Shares etc. to be granted to the Directors

For each fiscal year, the directors shall be awarded points, the number of which is to be decided according to their respective positions and performance, etc. based on the Officer Stock Distribution Rules. The upper limit of the total points to be awarded to the Directors for one (1) fiscal year shall be 45 thousand points. This has been determined, and judged appropriate by the Company, taking into consideration the current level of compensation paid to the Company's officers, the trend of the number of the Directors and future prospects etc. in a comprehensive manner. Each point awarded to the Directors shall be converted into one (1) share of the Company's common stock at the time of the granting of the Company's Shares etc. as described in (5) below (provided, however, that, if, in regard to the Company's shares, a share split, allotment of shares without contribution, or consolidation of shares, etc., is carried out after the resolution for approval of this proposal, the conversion ratio shall be adjusted in a reasonable manner in proportion to the relevant ratio etc.).

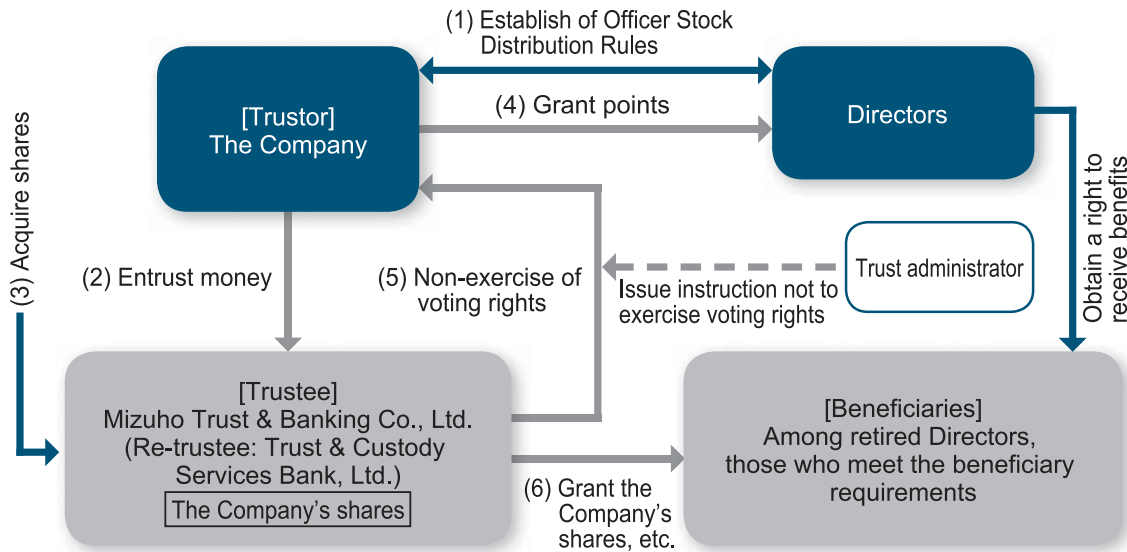

The number of points held by a Director, which will be used as the basis for the granting of the Company's Shares etc., shall be calculated by multiplying the cumulative number of points awarded to the Director by the time of his/her retirement by the coefficient (1 or less), which is predetermined according to reasons for retirement (hereinafter referred to as the "Defined Number of Points").

(5) The calculation method for the granting of the Company's Shares etc. and the amount of compensation etc.

When a Director of the Company retires and he/she meets the requirements for the beneficiary stipulated in the Officer Stock Distribution Rules, the said Director may be granted the number of the Company's shares by the Trust in accordance with the Defined Number of Points pursuant to (4) above after his/her retirement, provided that he/she takes the stipulated procedures to define the beneficiary. However, if the said Director meets the requirements separately stipulated in the Officer Stock Distribution Rules, in respect of a certain percentage of the points awarded to him/her, he/she may receive the amount of cash equivalent to the market value of the Company's shares in lieu of the Company's shares. The Trust may sell the Company's shares in order to make the monetary provisions.

The amount of compensation etc. to be received by the Directors shall be determined based on the amount calculated by multiplying the total number of points awarded to each Director by the carrying value per share of the Company's shares held by the Trust at the time of awarding of points (provided, however, that, if, in regard to the Company's shares, a share split, allotment of shares without contribution, or consolidation of shares, etc., is carried out, the conversion ratio shall be adjusted in a reasonable manner in proportion to the relevant ratio etc.), and in exceptional cases where monetary provisions are to be made in accordance with the provisions of the Officer Stock Distribution Rules, and it is considered reasonable, the amount of such shall be added to the amount of compensation etc. to be received by the Directors.
