## **Notice of Revised Consolidated Earnings Forecast for the Fiscal Year Ending March 31, 2021**

Dexerials Corporation (the “Company”) hereby announces that the Company has revised the full-year financial forecasts announced on October 29, 2020, considering the recent trend of business results, as follows.

### 1. Revised forecast of the full-year consolidated financial results for the fiscal year ending March 31, 2021 (from April 1, 2020 to March 31, 2021)

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent	Basic earnings per share
	Millions of yen	Millions of yen	Millions of yen	Millions of yen	Yen
Previous forecast (A)	61,000	7,000	6,800	2,500	41.18
Revised forecast (B)	64,500	10,000	9,500	4,200	69.18
Amount changed (B – A)	3,500	3,000	2,700	1,700	—
Percent change (%)	5.7%	42.9%	39.7%	68.0%	—
(Reference) Actual results for FY2019	57,710	4,617	4,393	2,734	45.05

### 2. Reason for revision:

In the nine months of the fiscal year ending March 31, 2021, despite a negative impact by the spread of the COVID-19, demand for mobile IT products, mainly laptop PCs, tablets, and 5G smartphones, expanded worldwide due to the progress of digitalization of the economy and society. As a result, our products’ volume used in mobile IT products continued to grow following the first half of the fiscal year, resulting in a strong performance. In addition, as we expect the demand for our products to remain steady in the fourth quarter, we revise the forecast of the full-year consolidated financial results, as mentioned above.

Although the impact of the COVID-19 remains severe, the underlying assumption is that the recovery of economic activities will continue in increments.
